## off the cuff

We asked kids at Broomfield Academy:

“Why do leaves change color?”

“So they can fall.”  
Murray Rundus,  
5

“Because  
everybody keeps  
touching them.”  
Olivia Potter,  
5

“ ’Cause it’s fall.”  
Alex Weiler,  
5

“Because in the  
fall they have to  
change.”  
Carter Dornan,  
4

“Because they  
don’t have  
chlorophyll in  
them anymore.”  
Alexandria Beilfuss,  
5

“The sun is not  
shining on them  
so much.”  
Zach Kuster,  
6

Cuff is not a scientific sample. Respondents are selected arbitrarily at locations around the city.
